The Combined General Meeting of Sanofi held on 4 May, 2015 has, in its 22nd resolution, authorised the Board of Directors to award to employees of Sanofi (“**Sanofi**” or the “**Company**”) and the companies within its Group, restricted shares in accordance with Articles L. 225-197-1 to L. 225-197-6 of the French Commercial Code. The term “**Group**” refers to Sanofi and any company or economic interest group within the meaning of Article L. 225-197-2 of the French Commercial Code and “**Group Company**” means a member of the Group.

Following the proposal of its Compensation Committee, the Board of Directors has decided to award restricted shares subject to performance conditions (the “**Performance Shares**”) and adopted the following rules for the plan (the “**Plan**”) with effect as from 24 June 2015 (the “**Award Date**”).

1 BENEFICIARIES

The Performance Shares are awarded to designated employees of Sanofi and of its Group Companies (collectively, the “**Beneficiaries**”, and individually, a “**Beneficiary**”), the list of whom, upon the proposal of the Compensation Committee, was adopted by the Board of Directors, which also approved the number of Performance Shares awarded to each Beneficiary on the Award Date.

None of the provisions which are set out in the Plan constitute an element of the employment contract of a Beneficiary. The rights and obligations deriving from the employment relationship between the Beneficiary and Sanofi or a Group Company shall in no way be affected by the Plan from which they are completely distinct. Participation in the Plan shall not confer any right relating to the continuation or creation of any employment relationship or any right upon termination of any such relationship.

2 VESTING PERIOD

Subject to Article 3 of this Plan, the Performance Shares will vest and the Sanofi shares (the “**Shares**”) may be delivered to the Beneficiaries only at the end of a four-year period (the “**Vesting Period**”) starting from the Award Date and expiring, subject to certain specific cases or exception set forth in this Plan, on 24 June 2019 (inclusive).

During the Vesting Period, the Beneficiaries are not the owners of the Shares and do not have any right attached to such Shares, whether it be voting rights or rights to dividends. They shall become full owners of the Shares only upon delivery.

Performance Shares are not transferrable until Vesting.

The Performance Shares are separate from the Beneficiary’s employment contract, and are not part of it. They are not taken into account to compute termination payments, pensions or any other payments made in the context of employment relationship termination.

Exception:

In case of international mobility within the Group, leading to a change of tax residence or/and social security regime for the Beneficiary between the Award Date and the Vesting Date, the term of the Vesting Period may be modified by the General Management of Sanofi, and a lock-up period may be imposed.

Subject to specific constraints resulting from local legislation, decisions to modify the initial terms of the award may only be made by the General Management of Sanofi.

Any amendment of the initial terms of the award pursuant to this provision will be notified individually to each affected Beneficiary.

3 VESTING CONDITIONS

The Performance Shares will vest when the conditions and criteria of the award determined by the Board of Directors and described below are fulfilled at the expiry of the Vesting Period (the “**Vesting**”).

Subject to specific cases and exceptions provided in the Plan, the Vesting Date is 25 June 2019 (the “**Vesting Date**”).

Upon Vesting, the Shares will be delivered to the Beneficiaries in accordance with Article 5 of the Plan.

3.1 Condition of Continued Employment

The purpose of this Plan is to promote the employee retention and availability for future service.

The delivery of the Shares will only be made to those Beneficiaries who have been continuously employed by Sanofi or a Group Company during the full Vesting Period, subject to the specific cases provided in Article 3.3.

Unless otherwise decided by the General Management of Sanofi in exceptional cases, any Beneficiary irrevocably loses the right to vesting in the following cases:

- (a) In the event of resignation before the expiry of the Vesting Period. The lapse of the right to vesting being effective as of the date of effective termination of the Beneficiary’s employment contract;
- (b) In the event of dismissal for serious or gross misconduct before the expiry of the Vesting Period. The lapse of the right to vesting being effective as of the day of effective termination of the Beneficiary’s employment contract. In case of termination or dismissal for any other reason, the Beneficiary will continue to hold the right to vesting but will be bound by the other conditions of the Plan, including the Performance Conditions set forth in Article 3.2.

Whenever the Beneficiary continues to hold the right to vesting after leaving the Group, the Vesting of his/her Performance Shares will be subject to a non-compete condition. If at any time before the expiry of the Vesting Period, the Beneficiary provides services to a competitor of the Group, he/she shall irrevocably lose all his/her Performance Shares. For the purposes of the present non-compete condition, the General Management of Sanofi shall determine whether a business and/or entity is a “competitor” and shall be entitled to request from the Beneficiary a written representation as to his or her compliance with this condition, and a Beneficiary may request that such a determination be made in advance of engaging in any activity. As an exception, the General Management of Sanofi may decide not to apply the non-compete condition on the Vesting of the Performance Shares of a Beneficiary.

For these purposes, a Beneficiary shall be deemed to compete with Sanofi if he or she directly or indirectly participates in, renders services to or becomes associated with any business unit, division, or company of any organization or entity, whether as a principal, partner, member, employee, consultant, shareholder (greater than 5%) or in any other capacity, that, directly or indirectly, competes with, or has a reasonable potential for competing with, any business of Sanofi (including any subsidiary thereof) which is involved in the therapeutic or product areas with which the Beneficiary worked in any capacity at any time during his or her employment with Sanofi (including any subsidiary thereof) or about which he or she acquired confidential information through his or her work with Sanofi (including any subsidiary thereof), without the express prior written agreement of Sanofi, as represented by its Director of Human Resources.

3.2 Performance conditions

The number of Shares to be actually delivered to each Beneficiary at the end of the Vesting Period, subject to meeting the continued employment condition described in Article 3.1 above and except for the specific cases described in Article 3.3 below, shall depend on the fulfilment of a performance condition consisting of the cumulative attainment, over a three-year period, 2015-2017 (the “**Period**”) of two performance criteria: the “**Business Net Income**” and the “**ROA**” (defined hereafter). It shall be equal to the number of Performance Shares granted to such Beneficiary at the Award Date multiplied by a rate (the “**Global Allocation Rate**”) equal to the weighted average of the “**Business Net Income Allocation Rate**” (for 60%) and the “**ROA Allocation Rate**” (for 40%) calculated over the Period on the basis, respectively, of the Business Net Income and the ROA, in accordance with the rules set forth below. If such weighted average exceeds 100%, the number of Shares to be delivered will be equal to 100% of the Performance Shares awarded on the Award Date, subject to the adjustments set forth in Article 7 and in Article 8 below.

(i) Business Net Income Achievement Rate

This performance criterion corresponds to an average achievement of business net income versus budgeted business net income over the entire Period.

Budgeted business net income as forecasted in the Budget (“**Budgeted Business Net Income**”) will vary from one fiscal year to another and will be approved by the Board of Directors at the beginning of each fiscal year.

For each fiscal year in the Period, the percentage, at a constant exchange rate, of (i) actual Business Net Income¹ (“**Business Net Income**”) over (ii) Budgeted

¹ Business net income is defined as Net Income attributable to equity holders of Sanofi, determined under IFRS, excluding:

- amortization of intangible assets*;
- impairment of intangible assets* ;
- fair value remeasurement of contingent consideration liabilities* ;
- other impacts associated with acquisitions (including impacts of acquisitions on associates and joint ventures);
- restructuring costs*(including restructuring costs relating to associates and joint ventures);
- others gains and losses and litigation* (including one-time additional adjustments, unrelated to segment performance);
- the tax effect related to the items listed above;
- the effects of major tax disputes;
- the tax on dividends distributed to Sanofi shareholders;
- the share of non-controlling interests in all items listed above.

* Reported in the consolidated income statement line items: Amortization of intangible assets, Impairment of intangible assets, Fair value remeasurement of contingent consideration liabilities, Restructuring costs and Other Gains and losses, and litigation.

Business Net Income will be calculated (such annual rate, the “**Annual BNI Achievement Rate**”).

At the end of the Period, the arithmetic average of the Annual BNI Achievement Rates for each fiscal year in the Period (the “**BNI Achievement Rate**” or “**R**”) will be calculated and the Board of Directors will determine the Business Net Income Allocation Rate corresponding to such BNI Achievement Rate, as follows:

BNI Achievement Rate (“R”)	Business Net Income Allocation Rate
If R is less than 95%	0%
If R is equal to 95%	50%
If R is more than 95%, but less than 98%	$(50 + [(R - 95) \times 16])\%$
If R is equal to or more than 98% but less than or equal to 105%	R %
If R is more than 105%, but less than 110%	$(105 + [(R-105) \times 9]) \%$
If R is equal to, or more than, 110%	150%

(ii) ROA

This performance criterion corresponds to a Return on Assets objective (the “**ROA Target**” or “**T**”) over the entire Period.

Return on Assets (“**ROA**”) is defined, for each of the years in the Period, as the ratio at constant exchange rates of the Business Operating Income after tax expense, divided by the average capital employed. Capital Employed means the Group’s consolidated assets, net of liabilities, excluding financial items².

The ROA Target, the intermediate performance (“**T**”) and the minimum performance (“**M**”) will be set at the beginning of the Period by decision of the Board of Directors.

Average ROA (“**P**”) is the arithmetic average of ROA for each of the years in the Period as measured by the Board of Directors. At the end of the Period, the Board of Directors will determine the level of achievement of the ROA Target, by establishing an “**ROA Allocation Rate**” for the Period as follows:

² Average Capital employed is defined as the arithmetic average of capital employed on January 1st and December 31st of the year involved, at constant exchange rates. Capital employed for a fiscal year is defined as the sum of tangible assets, goodwill (other than those relating to the Aventis business combination), other intangible assets (in gross value for all intangible assets other than those relating to the Aventis business combination, software and acquired R&D assets impaired as of December 31, 2014), investment in associates and JV, deferred tax assets, inventories, accounts receivable, other current assets and assets held for sale or exchange, reduced by provisions and other non-current liabilities (with the amount of actuarial gains and losses related to provisions for pensions and other post-employment benefits fixed as of December 31, 2014), current and non-current liabilities related to business combinations and to non-controlling interests, deferred tax liabilities (restated for the portion linked to the intangible assets included for their gross value), accounts payable, other current liabilities and liabilities related to assets held for sale or exchange, as shown in the Group’s Consolidated Balance Sheet.

Average ROA (“P”)	ROA Allocation Rate
If P is less than or equal to M	0%
If P is more than M but less than I	$[30 \times (\mathbf{P}-\mathbf{M})/(\mathbf{I}-\mathbf{M})]\%$
If P is equal to I	30%
If P is more than I but less than T	$[70 \times (\mathbf{P}-\mathbf{T})/(\mathbf{T}-\mathbf{I}) + 100]\%$
If P is more than or equal to T	100%

(iii) Global Allocation Rate

For the Period, the Global Allocation Rate is the weighted average of the Business Net Income Allocation Rate (for 60%) and the ROA Allocation Rate (for 40%).

At the Meeting of the Board of Directors at which the 2017 financial statements are adopted, the Board will determine whether or not the performance conditions for the Period have been met by determining successively: (i) the Business Net Income Allocation Rate, (ii) the ROA Allocation Rate, and (iii) the Global Allocation Rate.

If, for a given Beneficiary, the multiplication of the number of Performance Shares initially awarded by the Global Allocation Rate for the Period results in a fractional number of Shares to be delivered, such number of Shares to be delivered will be rounded upward to the next highest whole number.

In any event, the maximum number of Shares to be delivered may not be more than the number of Performance Shares initially awarded, subject to the adjustments set forth in Article 7 and in Article 8 below.

The objectives set are final. The Board of Directors will have the right, however, to adjust the performance conditions in case unusual circumstances justify such change, with concurring recommendation of the Compensation Committee, *i.e.*, in case of a change in the Company’s scope of consolidation, a change in accounting methods, or any other circumstance justifying such adjustment in the opinion of the Board of Directors, so as to neutralize, to the extent possible, the consequences of such changes on the objective fixed at the time of the initial award.

In the event of disability or death of a Beneficiary before the determination of the Global Allocation Rate, the Global Allocation Rate will be deemed to equal 100% on the date the relevant event occurs. In such case, the number of Shares to be delivered will be equal to the number of Performance Shares awarded.

In case of disability or death after the determination of the Global Allocation Rate, the Global Allocation Rate will be the rate determined by the Board of Directors. Disability and death, as used in this paragraph, are described in Articles 3.3.2 and 3.3.3 below.

3.3 Specific Cases

3.3.1 If before the expiry of the Vesting Period a Beneficiary (i) retires after meeting retirement eligibility in accordance with applicable local law, custom or practice and in any event after 60 years of age, subject to any applicable Provisions Specific to Certain Countries listed herein, or (ii) takes early retirement in the context of a collective legal or contractual early retirement scheme set up by the relevant Group Company and duly approved by the General Management of Sanofi, he/she will retain his/her right to vesting but will remain subject to the other conditions of the Plan, including the performance conditions defined in Article 3.2 above.

The non-compete condition does not in any way restrict the activities the Beneficiary may choose to undertake following retirement. However, if the Beneficiary chooses to undertake activities that compete with Sanofi, his/her status under this Plan will be relegated to that of an employee who has chosen to leave Sanofi to work for a competitor.

3.3.2 If a Beneficiary becomes disabled before the expiry of the Vesting Period, and provided that he/she can no longer carry on any professional activity, he/she will be entitled to request Vesting of the Performance Shares and delivery of the Shares at any time. Upon such early Vesting and delivery, the Shares will become freely transferable (subject to Article 5).

3.3.3 In the event of death of a Beneficiary before the expiry of the Vesting Period, the heirs or assigns of the Beneficiary may, if they so wish, request Vesting of the Performance Shares and delivery of the Shares within six (6) months of the date of death; otherwise they will irrevocably lose the right to so request. Upon such early Vesting and delivery, the Performance Shares will become freely transferable (subject to Article 5).

4 DELIVERY AND CUSTODY OF THE SHARES

Sanofi will deliver the Shares to the Beneficiary at the end of the Vesting Period, subject to compliance with the conditions and criteria of Vesting defined in Articles 2 and 3.

The delivery of the Shares will occur on the first business day after the Vesting Date.

Sanofi may in its sole discretion decide on the custodial arrangement of the Shares, in view of the regulations in force from time to time; thus, the Shares may notably be (i) registered in the name of the Beneficiary on an individual nominee account administered by an authorised financial institution or (ii) held through a mutual fund (*organisme de placement collectif*). The Beneficiaries shall be informed of such decision at the expiry of the Vesting Period.

To the extent that the Shares are held through a custodial arrangement established by the Company and that dividends are paid in respect of such Shares, the Company may in its discretion implement mechanisms intended to reduce the costs associated with international dividend distributions. These mechanisms may include grouped payments and mandatory reinvestment.

At the expiry of the Vesting Period, the Beneficiary may, upon specific request, hold the Shares in another form, notably in bearer form (*au porteur*). In this case, he/she will have to bear the fees related to the transfer and to the custody of the Shares he/she holds.

5 LOCK-UP PERIOD

There is no lock-up period imposed on the Beneficiaries with respect to the transfer of the Shares delivered to them upon Vesting (subject to certain international mobility cases as provided in Article 2).

Upon delivery at the expiry of the Vesting Period, the Shares will become available and may be freely transferred by the Beneficiary.

Any Beneficiary mentioned under Article 3.3.2 or the heirs or assigns of a deceased Beneficiary mentioned under Article 3.3.3 are entitled to sell the corresponding shares at any time.

However, the Shares must be transferred or sold in compliance with various provisions aimed at ensuring the transparency and the security of financial markets, and in particular those provisions concerning insider trading.

In this regard, pursuant to the provisions of article L.225-197-1 of the French Commercial Code, upon Vesting, the Shares shall not be transferred or sold:

- during the period of ten trading days that precede the date on which the annual consolidated accounts of the Company are published and during the period of three trading days that follow such date; and
- during the period between the date on which the Company's management bodies have knowledge of information which, were it to be published, could have a significant impact on the price of the Company's traded securities and the tenth trading day after the date on which said information is published.

Should periods defined under article L.225-197-1 of the French Commercial Code change over time, or be deleted, any new provision will automatically replace the provisions described above.

6 CHARACTERISTICS OF THE SHARES AND SHARES RIGHTS

The Shares delivered to the Beneficiaries will be new ordinary shares to be issued by Sanofi.

The Shares issued in favour of the Beneficiaries and delivered between the 1st of January of a fiscal year and the ex-dividend date of the dividend relating to the previous fiscal year will not be entitled to such dividend (except for the extraordinary distribution of reserves). As a result, such Shares shall have the same rights as those attached to the existing Sanofi shares after the ex-dividend date or, if no dividend was distributed, after the date of the Annual General Meeting.

7 ADJUSTMENT OF THE NUMBER OF SHARES

During the Vesting Period, in the event of a redemption or reduction of share capital, a change in the allocation of profits, a grant of free shares to all of the shareholders, an increase in share capital by incorporation of reserves, profits or share premium, a distribution of reserves, a share buy-back at a price above the share price on the stock exchange or any issue of equity instruments that includes subscription rights reserved for

the shareholders, the maximum number of Performance Shares awarded pursuant to the Plan may be adjusted in order to take into account such transaction, in a similar manner to the adjustment modalities provided by French law governing options to subscribe or acquire shares. The same applies in case of stock-split or reverse stock-split with respect to the Shares.

If such a situation is not covered by existing French law governing options to subscribe or acquire shares, the General Meeting of shareholders or the Board of Directors when deciding to proceed with such securities issuance or other modification of the share capital may adopt any adjustment measures necessary to protect the rights of the Beneficiaries, using by analogy French law governing similar cases.

Each Beneficiary will be informed of the practical terms of such an adjustment and of its consequences on his/her award of Performance Shares.

In accordance with the 22nd resolution of the Combined General Meeting dated 4 May, 2015, the Performance Shares which would have been freely awarded pursuant to such an adjustment will be deemed to have been awarded on the same day as the Performance Shares initially awarded on the Award Date.

8 RESTRUCTURING AND MERGERS

In accordance with article L. 225-197-1 III of the French Commercial Code, in case of a cashless share exchange (*échange sans soulte*) as a result of a merger or a split (*scission*) achieved in accordance with applicable law during the Vesting Period, all the conditions provided in this Plan at the exchange date and, in particular, any Vesting conditions and remaining Vesting Period, will remain applicable to the Performance Shares and to the Shares received in exchange.

9 SOCIAL AND TAX TREATMENT

The Beneficiary is responsible for making declarations and payments to be made or owed by him/her under applicable law and particularly his/her tax liabilities. Applicable social security law and tax law vary depending on the country of residence of the Beneficiaries.

Each Beneficiary is responsible for inquiring about the social and tax treatment applicable to him/her in his/her country of residence due to the award of Performance Shares, the Vesting or the delivery of Shares, or at the time of the transfer of the Shares or upon payment of any dividend.

In the event that, as a consequence of the award of Performance Shares, the Vesting or the delivery of Shares, Sanofi or a Group Company would have to pay taxes, social security contributions or any other taxes or governmental contribution on behalf of a Beneficiary, Sanofi reserves the right to defer or prevent the delivery of the Shares until such time as the Beneficiary has paid the corresponding amount to Sanofi or the relevant Group Company. Sanofi or, if applicable, the relevant Group Company has the right (i) to deduct the amount of these taxes, social security contributions, taxes or governmental contribution from the salary owed to the Beneficiary, or (ii) to transfer or sell all or part of the Shares in order to fulfil the Beneficiary's obligations, the proceeds being directly paid to Sanofi or the relevant Group Company.

Beneficiaries who have been employed in France during the Vesting Period but who would no longer be French tax residents of France at the time of the transfer of the Shares will be subject to a withholding tax in France. The tax will be deducted by the bank administering the Plan and may be withheld from the proceeds of such transfer. The balance of the proceeds of the sale will only be credited to the personal account of the Beneficiary after payment of any such tax due.

10 CONSTRUCTION OF THE PLAN AND GOVERNING LAW

It will be the responsibility of the Board of Directors to construe the provisions of the Plan, if required.

Any version of the Plan which may be drafted in a language other than the English language shall be for information purposes only to the attention of non-English speaking Beneficiaries. The English version of the Plan shall prevail.

The Plan is governed and shall be construed in accordance with French law, except for Articles 3.3.1, 3.3.2 and 4, which shall be construed and interpreted in accordance with local law, and any claim relating thereto will be subject to the jurisdiction of the courts within the jurisdiction of the Court of Appeal of Paris.

11 MODIFICATION OF THE PLAN

The terms of this Plan may be amended or supplemented by the Board of Directors (i) if it deems such amendment or supplement to be appropriate and not materially adverse to the interest of the affected Beneficiaries or (ii) by mutual agreement with the affected Beneficiaries.

More generally, in the event of a change in any legal, regulatory or accounting requirements applicable to the Plan, or any change in the interpretation thereof, in particular with respect to the fiscal or social treatment of any rights, payments or shares granted under the Plan, affecting the Company, any Group Company or any Beneficiaries, the terms of the Plan may be amended or supplemented by the Board of Directors, in its discretion and in the manner that it deems appropriate, in response to such change. For example, the Board of Directors may choose to shorten or lengthen the Vesting Period and/or to introduce a mandatory lock-up period and/or waive or modify any condition to Vesting and/or introduce new conditions. Furthermore, the Board of Directors may, if it deems the delivery of shares to any Beneficiary would be impossible or inopportune, choose to pay instead an amount in cash of equivalent value, net of taxes and social charges. The amount and timing of any such payment would be determined by the Board of Directors in its discretion, by reference to the number and timing of any Shares to be otherwise delivered hereunder, to be valued by the Board of Directors on or around the scheduled delivery date, or by reference to an average price over a period preceding such date.

Beneficiaries shall not be entitled to any indemnification for any loss of value and/or increased tax or social costs resulting from any such amendments or supplements to the Plan, irrespective of whether such loss or increase is of general application or is specific to them in view of their personal situation.

*
* * *

By participating in the Plan, the Beneficiary consents to the holding and processing of personal data provided by him/her to any member of the Group or third party service provider for all purposes relating to the implementation of the Plan. These include, but are not limited to:

- (i) administering and maintaining Beneficiary records;
- (ii) providing information to members of the Group, registrars, brokers or third party administrators of the Plan;
- (iii) providing information to future purchasers of the Company or of the business in which the Beneficiary works; and
- (iv) transferring information about the Beneficiary to France or to another country or territory outside of his/her home country and/or of the European Economic Area that may not provide the same statutory protection for the information as the Beneficiary's home country.

Anything in this Plan to the contrary notwithstanding, the award, Vesting of any Performance Shares and delivery of any Shares shall be conditioned on compliance with all applicable laws and regulations. The Company shall not be required to deliver Shares in any circumstances that it deems not to be in compliance with such laws and regulations.

If any such law or regulation shall require the Company, any other Group Company or any Beneficiary to take any action in connection with such award, Vesting or delivery, Vesting and/or delivery shall be suspended and deferred until such action shall have been taken. In any event, neither granting the award nor any other provisions of this Plan shall be construed to require the Company or any other Group Company to take any action to comply with local laws or regulations.

Should any approval required by local laws or regulations not be obtained on a timely basis, or should the Company deem it necessary or advisable in view of such local laws and regulations (including after having taken into consideration the costs and administrative burden of compliance with such local laws or regulations), the Company may (i) require Beneficiaries in the affected country to take delivery of their Shares through a procedure in which the shares are simultaneously sold with the Beneficiary receiving only the net cash proceeds or (ii) implement any other alternative designed to procure an equivalent benefit for the Beneficiaries of the affected country, including cancelling the award of Performance Shares and replacing them with Performance Units.
