

# Foundation S

## Our Mandate

### Mission

Improve the lives of vulnerable populations by catalyzing community-based solutions and expanding access to medicines globally

### Ways of Working

Listening in

**"Think Tank":** Bringing together the best minds to address critical gaps in global health.

Building on our Strengths

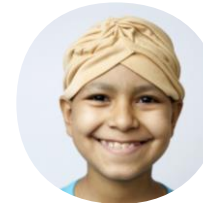

**"Do Tank:"** Our advocacy and actions including awareness raising and the engagement of our employees in NGOs around the world.

Harnessing the Power of Community-based Solutions

**Incubator/Social Innovation Fund:** Supporting vulnerable populations bring great ideas to scale to address the impact of climate change on their communities.

## 4 Commitment Areas

### *Childhood Cancer*

Supporting global ambition of achieving at least 60% child survival rate by 2030

### *Climate Change & Health*

Supporting vulnerable communities adapt to and build resilience to impact of climate change

### *Neglected Tropical Disease*

*Committed to Eliminating Sleeping Sickness by 2030*

### *Humanitarian Aid & Medicine Donations*

Assisting vulnerable & displaced populations during emergency crises
