

And the *winners* are...

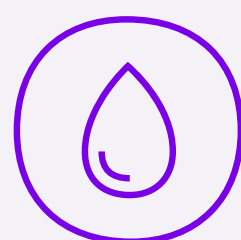

WASTE MANAGEMENT

Pens Go *Package-Free*

📍 Frankfurt, Germany

Goal: Eliminate packaging for insulin pens in a way that can be applied to other products

👍 **Impact:** 2.8 Kt of paper waste could be saved per year

WATER STEWARDSHIP

Reusing *Our Water* Resources

📍 Val-de-Reuil, France

Goal: Recycle and reuse purified water on our sites

👍 **Impact:** sites 12,000m³ of water could be saved per year

PHARMACEUTICALS IN THE ENVIRONMENT

Giving New Life to *Take-Back Programs*

📍 Cross-Sites, US

Goal: Empower patients to properly dispose of unused or expired medicine by putting relevant take-back information in the packaging

👍 **Impact:** Increase performance of existing take-back programs and reduce emissions of pharmaceuticals to the environment

BIODIVERSITY

Beeing the Change

📍 Lyon-Carteret, France

Goal: Develop an ecosystem that attracts pollinating bees and butterflies and provides shelter to birds and insects, as well as a place to educate employees and local communities on the importance of biodiversity

👍 **Impact:** Employees and communities would be empowered to act for a sustainable and healthier future

ENERGY

Seeing Green in *Our Labs and Offices*

📍 Frankfurt, Germany & Kyiv, Ukraine

Goal: Get all our laboratories the “My Green Lab” certification and drive a culture of sustainability in Sanofi

👍 **Impact:** Energy consumption could be reduced by 30%, water usage by 70%, and waste by 10% per year

ECO-DESIGN

Pulp > Plastic

📍 Gentilly, France

Goal: Develop the new generation of sustainable healthcare packaging using an innovative pulp-based technology

👍 **Impact:** Virgin plastic usage could be reduced by 90% and our carbon footprint by 45%

CLIMATE CHANGE

Taking the *Eco-Route*

📍 Barcelona, Spain

Goal: Forecast our upstream transport emissions and create visualizations for more sustainable transportation routes

👍 **Impact:** 70 Kt of CO₂ emissions, equivalent to that of 12,000 EU households, could be saved per year
