The General Meeting, voting on the quorum and majority conditions for Ordinary General Meetings, having reviewed the reports of the Board of Directors and of the statutory auditors, approves as presented the consolidated financial statements for the year ended December 31, 2024 comprising the balance sheet, the income statement and the notes thereto, as well as the transactions reflected in those financial statements and summarized in those reports.

### 3. Appropriation of profits for the year ended December 31, 2024 and declaration of dividend

The General Meeting, voting on the quorum and majority conditions for Ordinary General Meetings, having reviewed the reports of the Board of Directors and of the statutory auditors, notes that the financial statements for the year ended December 31, 2024 as approved by this meeting show a profit for the year ended December 31, 2024 of €6,472,744,998.67 and that, after retained earnings brought forward of €29,373,069,009.94, distributable profits amount to €35,845,814,008.61.

The General Meeting, acting on a proposal from the Board of Directors, resolves to appropriate the profit for the year ended December 31, 2024 as follows:

Profit for the 2024 financial year		€6,472,744,998.67
Retained earnings brought forward	(+)	€29,373,069,009.94
Appropriation to the legal reserve		€ <sup>(a)</sup>
Distributable profits	(=)	€35,845,814,008.61
To be appropriated as follows:		
to the payment of dividends		€4,914,079,228.80 <sup>(b)</sup>
to be carried forward as retained earnings		€30,931,734,779.81

(a) The amount of the legal reserve having reached 10% of the share capital, no appropriation to that reserve is proposed.

(b) The total amount of the dividend distribution shown above is calculated on the basis of the number of shares entitled to dividend as of December 31, 2024, i.e. 1,253,591,640, and may change if the number of shares entitled to dividend changes between January 1, 2025 and the dividend ex-date, in particular as a result of changes in the number of treasury shares, the vesting of consideration-free shares and the exercise of stock options (if the beneficiary is entitled to dividend under the rules of the relevant plan).

Consequently, the General Meeting resolves to pay a dividend of €3.92 per share, i.e. €4,914,079,228.80, the balance being carried forward as retained earnings.

In accordance with Article 243 *bis* of the French General Tax Code, the General Meeting notes that the dividends paid out in respect of the previous three financial years and the amounts eligible for the 40% tax relief specified in Article 158.3.2 of that Code are as follows:

Financial year	Number of shares carrying dividend rights	Dividend per share	Revenues distributed eligible for the 40% tax relief mentioned in Article 158.3.2 of the General Tax Code <sup>(a)</sup>
2021	1,251,632,634	€3.33 <sup>(a)</sup>	€3.33 <sup>(a)</sup>
2022	1,252,640,466	€3.56 <sup>(a)(b)</sup>	€3.56 <sup>(a)(b)</sup>
2023	1,251,349,581	€3.76 <sup>(a)</sup>	€3.76 <sup>(a)</sup>

(a) The full amount of the proposed dividend is eligible for the tax relief specified in Article 158-3-2 of the French General Tax Code, to which natural persons resident in France for tax purposes are entitled on condition that they have elected the global option for taxation on the progressive income tax scale specified in paragraph 2 of Article 200A of that Code.

(b) Plus, as an additional dividend in kind, 54,420,337 EUROAPI shares at a rate of 1 EUROAPI share per 23 Sanofi shares.

The ex-date for this dividend on Euronext Paris will be May 12, 2025 and the payment date will be May 14, 2025.

If on the payment date the number of shares carrying dividend rights in respect of the year ended December 31, 2024 were to be lower than the maximum number of shares potentially entitled to dividend indicated above, the profits corresponding to the dividend not distributed in respect of those shares would be appropriated to retained earnings.

- i. more generally, carrying out any transaction that is acceptable or may be authorized by applicable laws and regulations, especially if such transaction falls within the scope of a market practice that is accepted by the *Autorité des marchés financiers*.

The acquisitions, disposals or transfers described above may be effected by any means compatible with applicable laws and regulations, including as part of off-market trades.

This program is also intended to allow the Company to trade in its own shares on or off market in connection with any other objective authorized by applicable regulations or any other market practice that is accepted or may be authorized at the date of the transaction in question. In such cases, the Company will inform its shareholders by means of a press release.

Purchases of the Company's own shares may be made such that:

- a. the number of shares acquired by the Company during the repurchase program may not exceed 10% of the shares which constitute the then share capital of the Company, such percentage being applied to a share capital figure adjusted to reflect transactions affecting the share capital subsequent to the present General Meeting (as an indication, 126,312,272 shares as at December 31, 2024), it being stipulated that (i) the number of shares acquired with a view to their retention and future delivery in connection with a merger, demerger or asset-for-share exchange may not exceed 5% of the Company's share capital; and (ii) where the shares are repurchased to improve the liquidity of Sanofi shares on the conditions specified by the *Autorité des marchés financiers*, the number of shares taken into account in calculating the 10% limit mentioned above will be the number of shares purchased minus the number of shares resold during the period of the authorization;

The General Meeting resolves that, in the event of a public tender offer for the Company's shares being filed by a third party, the Board of Directors may not use this delegation of authority during the offer period without the express authorization of the General Meeting, and will suspend the execution of any share buyback program already initiated until the close of the offer, except in order to satisfy a delivery of shares initiated and announced prior to the filing of the said public tender offer.

The General Meeting delegates to the Board of Directors powers to adjust the aforementioned maximum purchase price in the event of a change in the par value of the share, increase in share capital by incorporation of reserves, consideration-free allotment of shares, stock split or reverse stock split, distribution of reserves or of any other assets, redemption of share capital, or any other transaction affecting shareholders' equity, so as to take account of the impact of such transactions on the value of the shares.

The total amount allocated to the share repurchase program authorized above may not exceed €21,473,086,240, excluding acquisition-related costs (or the equivalent value of this amount as at the same date in any other currency or currency unit established by reference to more than one currency).

Shares repurchased and retained by the Company will be stripped of voting rights and will not be entitled to receive dividend.

The General Meeting confers full powers on the Board of Directors, with powers to subdelegate within the law, to decide on and implement the present authorization and if necessary to specify the conditions and determine the terms thereof, to implement the share repurchase program, and in particular to place stock market orders, enter into agreements in particular with a view to the keeping of registers of share purchases and sales in accordance with applicable laws and regulations, allocate or reallocate acquired shares to pursued objectives subject to the applicable legal and regulatory conditions, set any terms and conditions that may be necessary to preserve the rights of holders of securities giving access to the capital or options to subscribe for or purchase shares or performance share allotment rights in accordance with legal, regulatory or contractual stipulations, make declarations in particular to the *Autorité des marchés financiers* or any other competent authority, accomplish all other formalities and generally do all that is necessary.

The Board of Directors will inform shareholders at an Ordinary General Meeting of all transactions carried out pursuant to the present resolution.

This authorization deprives of effect from this day any unused portion of any previous authorization previously granted for the same purpose, *i.e.* any authorization to carry out transactions in the Company's shares. It is granted for a period of eighteen (18) months from this day.

The General Meeting, voting on the quorum and majority conditions for Extraordinary General Meetings, having reviewed the Board of Directors' Report and the Statutory Auditors' Special Report, and in accordance with Articles L. 225-129, L. 225-129-2 et seq., L. 225-135 et seq., L. 22-10-51, L. 22-10-54 and L. 228-91 et seq. of the French Commercial Code:

1. delegates to the Board of Directors, with powers to subdelegate within the law, its competence to decide to carry out, on one or more occasions, in France and/or abroad, in the proportions and at the times it sees fit, with preemptive rights cancelled, via public offering(s) other than those referred to in Article L. 411-2-1 of the French Monetary and Financial Code, in euros or in any other currency or currency unit established by reference to more than one currency, whether for valuable consideration or free of consideration, issues of (i) ordinary shares of the Company and/or (ii) securities which are (a) equity instruments of the Company giving access to other equity instruments of the Company and/or giving entitlement to the allotment of debt instruments of the Company, (b) debt instruments giving access to future equity instruments of the Company, such instruments also potentially giving access to existing equity instruments and/or giving entitlement to the allotment of debt instruments of the Company, (c) equity instruments of the Company giving access to existing or future equity instruments issued by companies of which the Company directly or indirectly owns more than half of the share capital at the time of issue and/or giving entitlement to the allotment of debt instruments of such companies, and/or (d) equity instruments of the Company giving access to existing equity instruments of companies of which the Company does not directly or indirectly own more than half of the share capital at the time of issue and/or giving entitlement to the allotment of debt instruments of such companies;
2. resolves that subscription for the shares and other securities mentioned in paragraph 1 of the present resolution may be in cash, or by offset of debt, or in part by incorporation of reserves, profits or share premium. Such shares and/or securities may be issued as consideration for securities that may be contributed to the Company in connection with a public tender offer with an exchange component initiated by the Company in France or abroad under local rules relating to securities meeting the conditions laid down in Article L. 22-10-54 of the French Commercial Code;
3. delegates to the Board of Directors, with powers to subdelegate within the law, its competence to decide upon issues of ordinary shares or of the securities mentioned in items (ii) (a) and (ii) (b) of paragraph 1 above to be carried out further to the issuance, by companies of which the Company directly or indirectly owns more than half of the share capital at the time of issue, of securities giving access to future ordinary shares of the Company or to future securities as mentioned in items (ii) (a) and (ii) (b) of paragraph 1 above. Issuance by such companies of the aforementioned securities will entail unconditional waiver, in favor of the holders of those securities, by the Company's shareholders of their preemptive rights in respect of the ordinary shares or the securities mentioned in items (ii) (a) and (ii) (b) of paragraph 1 above to which the securities thereby issued by those companies will give entitlement, and in respect of the future shares of the Company to which the securities mentioned in items (ii) (a) and (ii) (b) of paragraph 1 above would give entitlement;
4. resolves to set the following limits to the amount of issues authorized to be carried out by the Company in the event of use by the Board of Directors of the present delegation of competence:
  - the maximum aggregate par value of immediate and/or deferred share capital increases that may be carried out under the present delegation is set at two hundred and forty million (240,000,000) euros (representing, as an indication, 9.5% of the share capital as of December 31, 2024) or the equivalent in any other currency or currency unit established by reference to more than one currency, it being stipulated that such amount will count towards the overall ceiling for share capital increases stipulated in paragraph 3 of the eighteenth resolution of the present meeting or, as the case may be, towards the overall ceiling stipulated by a resolution of the same kind that may supersede said resolution during the period of validity of the present delegation,
  - added to those ceilings will be the aggregate par value of any additional shares that may be issued in the event of new share capital transactions in order to preserve the rights of holders of securities giving access to the share capital or other rights giving access to the capital, in accordance with the law and with any applicable contractual stipulations;
5. resolves to set the maximum aggregate par value of debt instruments of the Company that may be issued under the present delegation at seven billion (7,000,000,000) euros or the equivalent in any other currency or currency unit established by reference to more than one currency, it being stipulated that such amount will count towards the overall ceiling for issues of debt instruments stipulated in paragraph 4 of the eighteenth resolution of the present meeting or, as the case may be, towards the overall ceiling stipulated by a resolution of the same kind that may supersede said resolution during the period of validity of the present delegation;

6. resolves to cancel shareholders' preemptive rights in respect of the securities covered by the present resolution, whilst however giving the Board of Directors discretion pursuant to Article L. 22-10-51, paragraph 1 of the French Commercial Code to grant to the shareholders, for a period and on terms to be set by the Board of Directors in compliance with the applicable laws and regulations, and for all or part of any issue that may be carried out, a priority subscription period that does not give rise to negotiable rights and which must be exercised in proportion to the quantity of shares owned by each shareholder and which may be supplemented by an application to subscribe for shares on a pro-rated basis;
7. resolves that if subscriptions by shareholders and the public do not absorb the entire issue, the Board of Directors may limit the issue to the amount of subscriptions provided that such amount reaches at least three-quarters of the issue decided upon and/or may allocate at its discretion some of all of the unsubscribed shares or securities;
8. formally notes that any issuance decided upon under the present delegation of competence will entail waiver, in favor of the holders of securities thereby issued that give access to the Company's share capital, by the Company's shareholders of their preemptive rights in respect of the shares to which such securities will give immediate and/or deferred entitlement;
9. formally notes that, in accordance with Article L. 228-93 of the French Commercial Code, a decision under the present delegation to carry out an issue of the securities mentioned in item 1 (ii) (c) above will, if such securities give access to future equity instruments to be issued by a company of which the Company directly or indirectly holds more than half of the share capital at the time of issue, require the approval of an Extraordinary General Meeting of that company;
10. formally notes the fact that:
  - the issue price of shares issued directly will be at least equal to the weighted average of the quoted market prices during the last three trading sessions on the regulated market of Euronext Paris preceding the start date of the public offering minus any discount that may not exceed 10%, after making any adjustment to that average in the event of a difference in the dates of ranking for dividend,
  - the issue price of the securities giving access to the share capital and the number of shares to which conversion, redemption or more generally transformation of each security giving access to the share capital would give entitlement will be such that the amount received immediately by the Company plus any amount to be received subsequently by the Company will, for each share issued as a consequence of the issuance of such securities, be at least equal to the minimum subscription price defined in the previous paragraph;

  - in the event of an immediate and/or deferred issue of ordinary shares, determine the amount of the issue, the price of the issue, and the amount of any premium that may be required on issuance,
  - determine the dates and terms of the issue and the nature, number and characteristics of the securities to be issued, and in the case of issues of debt securities determine also whether or not they will be subordinated (and where relevant their subordination ranking); amend, during the life of the securities in question, the above terms, in compliance with the applicable formalities,
  - determine the method of payment for shares or securities giving access to the share capital to be issued in immediate and/or deferred issues,
  - set the terms for the exercise of rights (in particular rights to conversion, exchange or redemption as the case may be, including by delivery of Company assets such as treasury shares) attached to the securities giving access to the share capital that may be issued, and in particular set the date, which may be retroactive, from which the new shares will rank for dividend, and all other terms and conditions for the completion of the issue,
  - set the terms on which the Company will have the option of purchasing or exchanging on the stock market, at any time or during specified periods, securities issued or to be issued in an immediate and/or deferred issue, whether or not such purchase or exchange be made with a view to cancellation thereof in accordance with the law,
  - allow for the option of suspending the exercise of the rights attached to the securities thereby issued, in compliance with the laws and regulations,
  - in the event of an issue of securities intended as consideration for securities contributed to the Company in connection with a public tender offer with an exchange component (public exchange offer), establish a list of securities contributed to the exchange, set the conditions of the issue, the exchange ratio and the amount of any cash portion to be paid (without applying the method for determining the price in paragraph 10 of the present resolution), and determine the terms of the issue in connection with a public exchange offer, or an alternative cash or exchange offer, or a single offer to purchase or exchange the securities in question in return for payment in securities and cash, or a principal public cash offer or public exchange offer accompanied by a subsidiary public exchange offer or public cash offer, or any other form of public tender offer in compliance with the laws and regulations applicable to said public tender offer,
  - at its sole discretion, charge the cost of share capital increases against the premium arising thereon, and deduct from such premium the sums necessary to increase the legal reserve,
  - determine and make all adjustments to take account of the impact of transactions, in particular those involving the shareholders' equity of the Company, and set all other terms enabling, in compliance with legal and regulatory requirements and with any applicable contractual stipulations, the rights of holders of securities giving access to the share capital to be preserved (including by means of cash adjustments),

- duly record completion of each share capital increase and make the corresponding amendments to the Articles of Association,
  - generally, enter into all agreements, in particular to ensure completion of the proposed issues, take all measures and accomplish all formalities for the issuance, listing and financial administration of securities issued by virtue of the present delegation and for the exercise of the rights attached thereto;
12. formally notes the fact that, in the event the Board of Directors uses the delegation of competence granted to it by the present resolution, the Board of Directors will report to the next following Ordinary General Meeting, in accordance with the laws and regulations, on the use made of the authorizations conferred in the present resolution;
13. formally notes that the present delegation deprives of effect from this day any unused portion of any prior delegation having the same purpose as that covered by the present resolution;
14. sets the period of validity of the delegation of competence covered by the present resolution at twenty-six (26) months from the date of the present meeting, it being stipulated however that the Board of Directors will not be authorized to decide to carry out a share capital increase under the present delegation of competence during the period of a public tender offer for the Company's shares.
